

## Note di Matematica

Volume 40, number 1, 2020

- M. BIDKHAM, T. SHAHMANSOURI: *Generalization of certain well-known inequalities for rational functions* 1
- B. VENKATESWARLU, P.T. REDDY, CHAO MENG, R.M. SHILPA : *A new subclass of meromorphic functions with positive coefficients defined by Bessel function* 13
- H. BUDAK, Y. BAKIŞ: *On Fejér Type Inequalities For Products Two Convex Functions* 27
- X.Z. KRASNIQI: *On generalization of two theorems pertaining to integrability of cosine and sine trigonometric series* 45
- M.A. BEN BOUBAKER: *Positive Solutions of singular semilinear elliptic equation in bounded NTA- Domains* 57
- N. REHMAN: *On rings and Banach algebras with skew derivations* 73
- V. NAPOLITANO: *Cones in  $PG(3, q)$*  81
- D.M. NAIK, V. VENKATESHA AND H.A. KUMARA: *Some results on almost Kenmotsu manifolds* 87
- E. SOORI, M.R. OMIDI AND A.P. FARAJZADEH: *Some properties of the mapping  $T_\mu$  introduced by a representation in Banach and locally convex spaces* 101
- F.Z.Z. FARHADI, M.S. ASGARI, M.R. MARDANBEIGI: *Frame measures for infinitely many measures* 115
