

Note di Matematica

Volume 45, number 1, 2025

J. ROTH: <i>Almost starshaped CMC hypersurfaces in space forms are geodesic spheres</i>	1
G. GAIFFI, O. PAPINI, V. SICONOLFI: <i>An isomorphism between projective models of toric and hyperplane graphic arrangements</i>	15
C. PROCESI: <i>Some special bases of the 2-swap algebras</i>	39
F. A. F. TOJO: <i>The role of the Darboux property in the core theorems of Calculus</i>	57
S. KONOPLEV, J. MEDEL, R. V. RUSSELL: <i>Non-Kähler C-Y 3-folds arising from singular K3 surfaces</i>	69
Y. BOURAMDANE, M. E. EL KETTANI, A. LAHSSAINI: <i>On the local spectral subspace preservers</i>	81
M. NAGHSHINEHFARD: <i>The conjugacy classes and commuting degree of the p-groups with a cyclic subgroup of index p^2</i>	95
